

Amaze your family and friends! Entertain small crowds. This skill will take lots of work and whole hours of practice to acquire. But once it is done, you can be the center of attention any time you want to. Discover the secrets in Hand Shadow Illusions. Here are the proven steps to help you create some really fascinating and fun hand shadows.

The whole story is right here in this package. Everything you need is included so you can learn these secrets in the quickest and easiest way. You will be a master and learn how to entertain with hand shadows.

However, some real tough restrictions apply. This book is valued at \$37 per copy. You cannot sell it for less And you cannot give it away.

By what pains these illusions were invented can never be revealed; for it is known to my tortured digits alone, and they, luckily for me, are dumb. I calculate that I put my ten fingers through hundreds of various exercises before my "Bird" took wing; my left little finger thrills at the memory of "Grandpapa"; and my thumbs gave in no less than twenty times before "Boy" was accomplished.

Yet now how easy it is to make the "Duck" to quack, the "Donkey" to bray, "Toby" to wag his tail, and the "Rabbit" to munch his unsubstantial meal once you know how to make the first one!.

Of course, you won't be able to produce the Shadows on your very first try. But I believe that in each case I have drawn the due position of the fingers with such care, that the most difficult subject may be accomplished after just a few minutes of hard practice; and once you know how to make these in this book; With a little ingenuity and some patience, new shadows may be produced; and not unfrequently some very unique figures appear that one never dreamed of attempting.

Here are some other subjects your parents may appreciate.
